Anima Ares Hydro & Micro

The Anima Ares is a powerful and versatile system that allows you to offer two of the most popular exfoliation treatments on the market: Hydrodermabrasion and Microdermabrasion. Having both of these modalities together makes creating customized treatments for your clients easy.

The Anima Ares has 4 functions:

- Hydrodermabrasion
- Microdermabrasion
- Ultrasound
- Cold therapy

This combination of therapies is innovative and will help you treat a wide range of skin types and conditions. Give you and your clients many options to achieve their desired results.

Start increasing your revenue today with the Anima Ares.

Anima Element Hydrodermabrasion and Oxygen infusion

The Anima Element Hydro-dermabrasion and Oxygen infusion is a perfect way to introduce your clients to hydrodermabrasion. The Element is unique because it is so versatile and allows you to work on all skin types.

We have harnessed the power of the mechanical exfoliation of diamond microdermabrasion and the chemical exfoliation of hydrodermabrasion and put them together in the Double Light and Double Exfo Hydro tips. Which allows you to give your clients deep and effective exfoliation without irritation. The Ruffle Wave gives you the ability to have a more gentle mechanical exfoliation without the diamond tip and still have the chemical exfoliation with the serum that you choose.

Finally, the spiral deep tips are made of soft silicone and can create gentle vacuum pressure that is perfect for extractions. The Element comes with one set of twelve tips for various sizes.

Anima Adagio Microcurrent

The Adagio includes the following hand-pieces:

- Disk Probes for the face and neck
- Globe Probes for face and eye area
- Q-Tip probes for sensitive skin
- Gloves for microcurrent massage on face and body

The Adagio Microcurrent is a professional microcurrent machine that is perfect for providing facial and body microcurrent treatments. With its multiple probes, you can select what is the best option for your client and their skin.

Microcurrent therapy uses low voltage electricity similar to the natural electrical current in the body. Microcurrent energy has the ability to lift and tone muscles creating a more firm appearance. Microcurrent also has benefits on a cellular level, it stimulates adenosine triphosphate (ATP) cell growth, and drives the creation of collagen and elastin in the skin.

The Adagio uses safe and effective microcurrent energy to give your clients comfortable treatments.

Anima Alto 8-1 Skincare System

Anima Rhapsody Lipo-Laser

Rhapsody Lipolaser is the perfect addition to your body contouring treatments. Simple hands-free treatments that help melt fat and reduce inches. It is Painless, non-invasive and requires little work from the therapist.

The Rhapsody includes:

- 8 large lipo laser pads

- 2 small lipo laser pads

You can customize how many pads you turn on during treatment. So each treatment can be customized to your client's needs.

The low-level laser energy (630 NM) targets adipose tissue, which causes fatty acids to be released from adipose cells which causes them to shrink significantly. This produces a reduction of inches for the client.

The Rhapsody Lipolaser paddles are placed on the treatment area, the paddles emit low levels of laser energy which essentially blasts fat cells without harming the skin.

Anima Tempo Cavitation and RF

The Tempo Cavitation and Radiofrequency is the ideal machine for your body contouring business. It includes powerful 40K cavitation allowing you to blast fat. Then there are 3 different radiofrequency handles that allow you to provide skin tightening for all areas of the body and face. It also comes with a vacuum+radiofrequency handpiece perfect for the lymphatic drainage necessary post-body contouring. It can also be used on its own to treat cellulite and orange peel skin.

Included Handpieces:

- 40K Cavitation
- Large multipolar Radiofrequency
- Medium multipolar Radiofrequency
- Small bipolar Radiofrequency
- Multipolar Radiofrequency with vacuum

The combination of all these therapies together in one machine is what makes the Tempo exactly what you need for your body contouring business.

Anima Accent Vacuum Cupping Therapy

Our exclusive cupping therapy machine. It is popular with clients interested in a more holistic approach to wellness and pain relief.

However, vacuum therapy has many other aesthetic benefits as well. It has become extremely popular as a form of natural buttocks enhancement through the use of large cups, and it is amazing at helping smooth and target areas of cellulite.

The suction and negative pressure provided by the cupping provides the following benefits:

- Loosening muscles
- Stimulating pressure points
- Removing toxins
- Smoothing body contours
- Reducing the appearance of cellulite
- Natural buttocks enhancement
- Lymphatic drainage

Anima Accent vacuum therapy is ideal to perform post fat reduction treatments like cavitation, radiofrequency, cryotherapy and lipo laser to further enhance the results of the treatments.

Anima Forza Tri-Diode Laser

The Forza is a Triple wavelength diode laser, this makes it safe and effective for all Fitzpatrick skin types. The Forza features 755, 808, and 1064 wavelengths making it the gold standard for hair removal. By incorporating multiple wavelengths and technologies, it not only enables professionals to treat a wide range of hair types, but also enables patients to enjoy a comfortable treatment process and an effective clinical outcome.

Forza diode laser penetrates deep into the dermis, and is absorbed by melanin in the hair follicles. The laser energy is converted into thermal energy, which damages the hair follicle without damaging the surrounding tissue for effective hair removal.

The Forza is an almost pain-free hair removal experience for your clients; it features a sapphire glass cooling window that cools to -4 degrees Celsius, thus keeping your client comfortable throughout the treatment. That means fast results with a high degree of comfort.

Typically clients can see hair reduction after 1-2 sessions. We recommend packages of 6-8 sessions for best results.

Benefits of the Forza:

- Triple wavelength allows for more effective hair removal on all Fitzpatrick skin types
- Significant hair reduction in 1-2 sessions
- Treatments are fast and easy on the therapist
- Multifaceted cooling system keeps clients comfortable
- Excellent for sensitive areas like the face or bikini
- Can do large areas very quickly
- 24hr continuous run time

**Elevate your hair removal treatments
with the Anima Forza Tri-Diode Laser.**
